To whom it may concern,

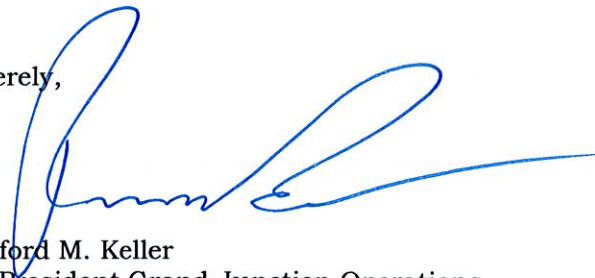

I am writing this letter in recommendation of Iron Industries, LLC. and the work that they perform.

Over the last two project cycles, CJ and his team have performed the steel erection and misc. steel installation for two large school projects. The projects, a 59,000 SF addition and a new 85,000 SF building, both had challenging structural systems, with considerable detail work and decorative work. Iron Industries rose to the challenge, they helped drive schedule, and were effective communicators throughout the process. Their men onsite are solution driven, are craftsmen, and take pride in their work

I would not hesitate to recommend them on any size project. They have the technical staff and support that make them a valuable member of the team.

Please feel free to contact me with any questions or concerns on their behalf.

Sincerely,

Bradford M. Keller  
Vice President Grand Junction Operations  
FCI Constructors, Inc.
