To whom it may concern:

It is with great pleasure that I recommend Iron Industries for Erection Services on any projects you are considering them for. Western Slope Iron & Supply, Inc. has worked on several commercial projects with Iron Industries since the mid 2000's. Iron Industries provided both pre-construction services and erection services on these projects. Iron Industries has always displayed extraordinary ability in helping to identify and resolve issue up front before they became issue's that cause delays in the field. We are always excited to work with a company that display's both professional quality and superior performance.

Iron Industries has shown in the past that they have the knowledge and understanding of how to coordinate with multiple trades working safely, providing a quality project completed on time.

It is without reservation that I highly recommend Iron Industries, and we look forward to working with them on future projects.

Please fell free to contact me for any other information.

Sincerely,

A handwritten signature in blue ink that reads "Gordon Cole".

Gorden Cole
Vice President
